Lebanon, TN 37087

Subject: Approval of Reinforcing Bar Tie System

Dear Mr. Jones

The department has reviewed the literature and other supporting documents that you submitted to us on the subject product, the Kodi Klip System. This letter is to notify you that a review has found this to be an acceptable product but there is no pre-approval given on this for use on State of Wisconsin Department of Transportation projects. Rather, the product is field accepted by the project engineer. Please be advised that the material supplied to the contractor for a particular project will be subject to inspection and determination of compliance with the specification as determined by the project engineer. You may proceed to make contact with contractors working on State of Wisconsin Department of Transportation projects.

Please note the additional provisions that apply to this WisDOT letter of acceptance:

- Your product's use remains valid as long as the product is conforming to WisDOT specifications.
- Any design changes may require a new letter of acceptance.
- Should WisDOT discover that the qualification testing was flawed, that in service performance reveals unacceptable characteristics, or that the product being marketed is significantly different from the version that was approved, the department reserves the right to revoke or modify this letter.
- You will be expected to provide potential users with sufficient information on design and installation requirements to ensure proper performance.
- You will be expected to certify to potential users upon request the product's pertinent qualifiers and that the product is essentially the same as originally accepted in this letter.

Please be advised that this approval in no way implies or constitutes an endorsement of your product. Its use in the field is contingent on your ability to satisfy the needs of the contractors who use it. This approval will remain valid as long as your product continues to meet our specifications.

If you have any questions or require further information on this matter, please do not hesitate to call me at 608-299-8489.

Sincerely,

A handwritten signature in black ink, appearing to read "W. Dreher".

William C. Dreher, P.E.
